

# CTBN Business Matching Forum for Clean Energy Projects in Indonesia

The CTBN Program, funded by Ministry of Economy, Trade and Industry of Japan, aims to create new climate-friendly projects in developing countries that are prominent under business circumstances in the near future. It provides technology matching opportunities and advisory services to Project Developers and Japanese Technology Providers.

The CTBN Forum aims to facilitate technology matchmaking between Indonesian companies (especially, project developers, EPC companies, and IPPs) with Japanese clean energy technology providers to accelerate climate-friendly society in Indonesia.
