

Call for applications for Project developers of Southeast/South Asia who want to participate in our CTBN program

In Southeast/South Asia, development of Clean energy project which contributes to prevent global warming becomes more and more necessary and popular.

Clean Technology Business Network (CTBN) program provides the support for business matching between project developers who are developing/planning clean energy projects in Southeast/South Asia and Japanese Technology Providers who can provide the technologies to match project developer's needs. CTBN also provides support for project development and access to project financing.

* This project is implemented as a part of "Establishment of support scheme of CTBN program" commissioned by Japanese Government of Ministry of Economy, Trade and Industry (METI).

【Benefits in participating in our CTBN Program】

- ◆ Access to information on promising Clean Technology Providers of Japan
- ◆ Opportunity to participate in "Online meeting" which includes individual based business meeting with promising Japanese Technology Providers
- ◆ Free advisory service for business matching, project development (considering business model) and project financing by CTBN experts (applicants only. Screened by ICETT)

【Requirements for participation】

1. Targeted Applicants

Project Developers who develop and implement a project which contributes to greenhouse gas emission reduction (clean energy project) in Southeast/South Asia.

- * Target for project developer who is implementing or planning clean projects in Southeast/South Asia
- * In case the project is/will be implemented in southeast/south Asia, project developers from other countries can apply.

2. Targeted Countries

Southeast Asia : Vietnam, Laos, Cambodia, Thailand, Myanmar, Philippine

South Asia : India, Bangladesh, Nepal, Bhutan, Sri Lanka, Maldives

3. Targeted Clean Technology

- Solar Power
- Hydro Power
- Wind Power
- Energy Efficiency
- Geothermal
- Biomass/Biogas/Biofuel
- Waste to Energy
- Clean Transport(Electric Vehicle)
- Smart Grid

【Online meeting (Individual based meeting)】

Participants of CTBN program are required to participate in "Online meeting" which is individual based business meeting with promising Japanese Technology Providers.

- Implementation period : during December, 2016 to January, 2017
- Implementation date & schedule: ICETT will contact the applicants later

【Application method】

1. Submitted documents

- Registration form:
 - Technology needs data sheet: Please write down the information regarding the clean technology you are interested in.
- ※You can download the Registration form and Technology needs data sheet from following website. ⇒<http://icett.or.jp/english/kouryuu/h28/ctbn.html>
- ※Please submit above documents by electronic files.
- ※Please submit the documents by original format. ※Please do **not** convert to PDF file.

2. Deadline: Monday, 31st October, 2016

3. Documents are submitted to:

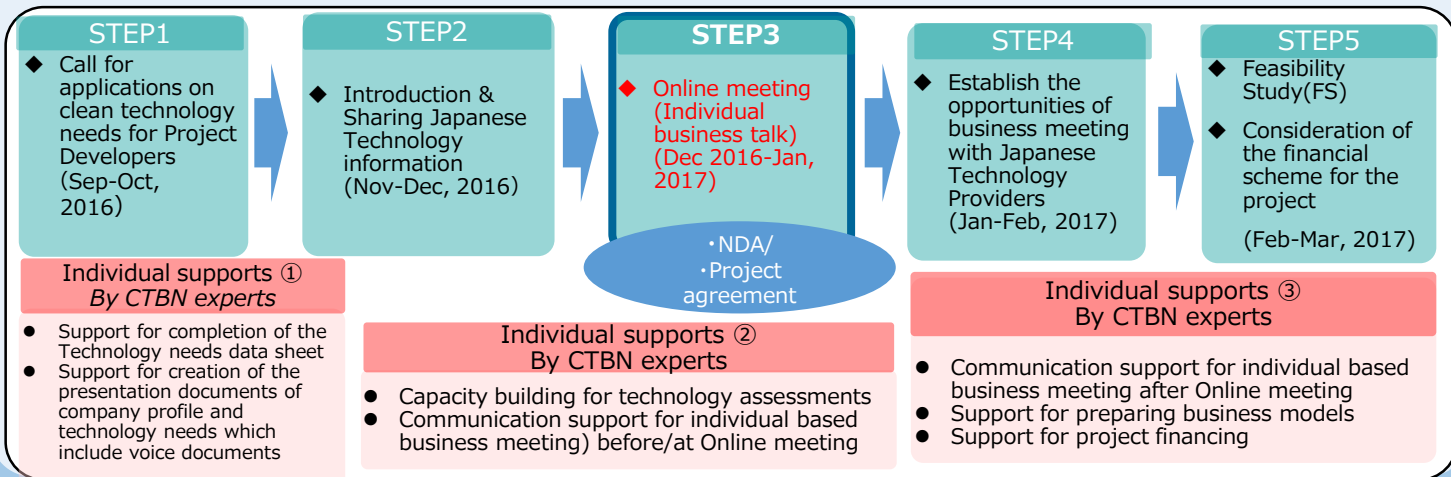

International Center for Environmental Technology Transfer (ICETT)
 Yasuko OZAKI (Ms.) : matsuoka@icett.or.jp , Naoko KURODA (Ms.) : yumiba@icett.or.jp

The image shows a screenshot of a 'Technology Needs Data Sheet' form. The form is divided into several sections: 'Company Information', 'Project Information', 'Technology Information', and 'Contact Information'. It contains various input fields for text, dates, and checkboxes, along with some dropdown menus. The form is titled 'Clean Technology Business Network' at the top.

Technology needs data sheet

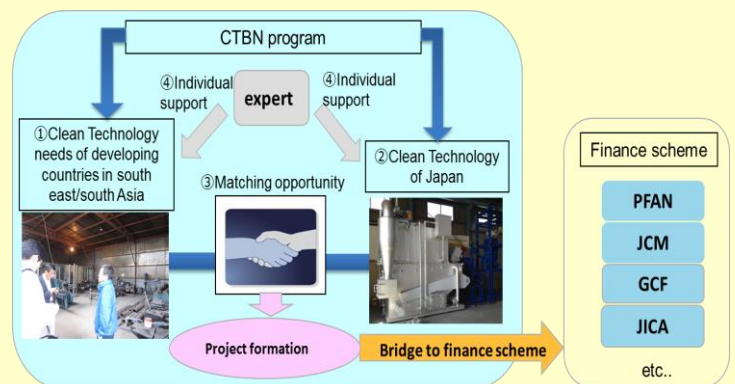

【Subsequent Process after receiving your application】
