(Target industry: Food & Food Related Industries)

Date: 26th and 27th February, 2025

Venue: The Sukosol Hotel, Bangkok, Room: Kamolthip1 on 2nd Floor
(477 Si Ayuthaya Road, Phaya Thai, Bangkok 10400)

Organized and implemented by

Department of Industrial Works (DIW)

International Center for Environmental Technology Transfer (ICETT)

United Nations Industrial Development Organization (UNIDO)

Supported by

Global Environment Facility (GEF)

As efforts toward carbon neutrality (hereinafter referred to as CN) accelerate on a global scale in response to the rapid progression of climate change, companies' participation in CN efforts has become an urgent and essential issue for survival.

This seminar will provide participants with information about the Thai government's policies and measures toward CN, as well as international regulations and systems related to CN.

It will also provide an opportunity for participants to learn specific know-how, such as approaches to calculating and reducing greenhouse gas (GHG) emissions, in the food industry, one of Thailand's major industries.

Activity implemented under the project

“Application of industry – urban symbiosis and green chemistry for low emission and persistent organic pollutants free industrial development in Thailand.”
